Please be advised that on March 25, 2014, UNSE filed an application with the Commission in Docket No. E-0420A-15-0099 requesting approval of a new net metering tariff that, if approved by the Commission, may be applicable to all customers who submit a completed net metering interconnection application after June 1, 2015. The application requests several changes to the current net metering tariff, including changes to the retail credit customers receive for all excess energy placed on the grid and elimination of the monthly energy carryover (banked credits).
